About Us

Metal fabrication works require craftsmanship. Having experts with complete knowledge of this work, Krome Lasers And Fab is growing successfully in Indian and foreign markets. We are considered expert in this domain because we work as a manufacturer with complete devotion and bring forth nothing but quality assured Stainless Steel Wire Sculpture for Park, Metal Automotive Components, Industrial Precision Sheet Metal Components and other products. From construction to engineering, we have made a mark in all the industries owing to our products quality and affordability. Another reason for customers keeping faith in our company is our successful operations as service provider.

Our biggest strength in Sheet Metal Fabrication, CNC Laser Cutting Service and more is our designing facility. We have advanced systems for making a complete layout of products to be made. Every single detail is looked into so that not even a minute mistake is made. For ensuring smart and responsible designing work, we have recruited best experts from the industry. It is their knowledge combined with talent that makes our designing facility a big success.
